

Research in Life Sciences: Ethology for Grades K-12

(Education: Adv. Practitioner) - EDAP 663
(3 hrs.) UofL graduate credit

July 7 – 14, 2008
8:30 a.m. – 4:00 p.m.

July 15, 2008
8:30 a.m. – 12:00 p.m.

Join Louisville Zoo curator Marcelle Gianelloni and science teacher educator Dr. Sherri Brown for a chance to study animal behavior at **the Louisville Zoo**. This University of Louisville course provides an introduction to observational methods of studying animal behavior. The following are components of the course:

- Improve observational skills
- Construct an ethogram
- Document observations of gorillas, meerkats, bats, & wolves
- Analyze and present data
- Study mammal rotation system

A nominal fee of \$50 will be charged the first class day for the course textbook and daily entrance to the zoo. Enroll for the course by viewing registration information online from url <http://louisville.edu/student/services/registrar/reginfo.html>

For additional questions, email Dr. Sherri Brown (s.brown@louisville.edu)
